Answer: This is a PRU with 40 places spread across an age range of 5 to 16 according to demand = 42 places

A.4 Recommended minimum playing field area as calculated using area guidelines (Annex C of the advice document explains how to calculate area guidelines):

Answer: 5,340m2 this is based on the recommended site areas for a special school

'Wave Multi Academy Trust require a new school site for River Dart Academy an alternative provision setting for pupils from age 5 to 16 years.

We require a site that provides space for a new build school building and appropriate external formal and informal playing provision for our pupils at both educational phases.

We believe that the KEVICC surplus land could meet this need and we would welcome a conversation relating to the potential availability of land that you plan to dispose of.

We are working with both Devon County Council and the DFE to ensure that River Dart Academy have a suitable, high quality site and buildings that provide appropriate and sufficient space.' Trust's response to the consultation.

Discussions between KEVICCs, the Trust and the LA are ongoing.
