17 June 2022

Dear Secretary of State,

Recommendation of the School Playing Fields Advisory Panel

The School Playing Fields Advisory Panel met on 15h June 2022 where it considered an application from The Dart Valley Leaming Trust (a foundation) to dispose of playing field space at King Edward VI Community College, Totnes, Devon — a foundation school — although it is expected to obtain academy status this year.

The foundation trust wish to sell an area of 70,415m^2 of which 32,215m^2 is playing field. It is proposed that the land will be used for appropriate housing. The land is classed as surplus with the proposal to rationalise a large and hard-to-manage site and raise fimds for a capital programme of Improvements.

After consideration of the information provided by the applicant, the Panel was content to recommend approval.

Should you require any further information with regard to this application, or if the Panel can be of any fulther service, please do not hesitate to contact me.

Yours sincerely
